months of monitoring!  
(up to \$100)

## Spring 2023 Newsletter

Happy Spring!

As we all know by now, just because the calendar says it is spring, does not necessarily mean the temps will immediately reflect our much-needed break from freezing cold, snow and ice. I, for one, can't wait for golf, planting gardens and fishing lines in the water.

As you do your spring cleaning, please don't forget about your security system. Refresh yourself with who's on your contact lists and check your cameras, are they sharp and clear? Don't forget to test your system. Not sure how? Give our monitoring team in Rockport a call and they will put your system on test and coach you through all you need to know!

In addition to testing your system, please keep watch over your basements for water flow. Nothing ruins a good finished basement like a foot of water! Water damage can happen quickly and without notice. If you have issues with or the potential for moisture in your home, call us to learn about our water sensors. They can save you a lot of headache by warning you of a water issues before you have major damage.

In closing I just want to thank you all for entrusting Seacoast Security to protect your family, home or business. It's a job we all take very seriously and are happy to do it.

Have a fantastic spring!

Stephen Haynes, Owner

**We are hiring!**

## What Our Customers are Saying...

Thanks, Rob, for going way above and beyond and making sure that this feel-good start up gets rolling in the right direction. We needed a lot of guidance and you have been available at every step. Much appreciated.

– *Jim F.*

We would be happy to recommend Seacoast Security to friends and family. The installation process went very smoothly and all of the staff we worked with were very knowledgeable and helpful. When we have called with a question, whether technical or alarm related, the response was very prompt and helpful.

– *Jim and Karen C.*
