

## AlarmAccount SMS

A new add-on service to allow you to respond to an alarm quickly and conveniently from your mobile phone. Confirm or cancel dispatch services with a few easy taps on your mobile phone.

When an alarm is triggered, specified emergency contacts will automatically be sent a disaster text message with a link directing them to a web app with the ability to confirm or decline an alarm in real time.

AlarmAccount SMS has additional easy-to-use features of the touch of your fingertips:

-  Add, change, or delete emergency contact
-  View account information
-  Place accounts on and off test for quick verification on alarms
-  View alarm history
-  Group chat with other emergency contacts to relay important information about the situation, or report that there is nothing to worry about

### 1. Test received

### 2. Alarm - Cancel Dispatch, or Request Dispatch

### 3. Group Chat with Other Contacts

### 4. Place Account On Test by Submitter/Owner

### 5. Update Account Information
