# AlarmAccount SMS

A new add-on service to allow you to respond to an alarm quickly and conveniently from your mobile phone. Confirm or cancel dispatch services with a few easy taps on your mobile phone.

When an alarm is triggered, specified emergency contacts will automatically be sent a discreet SMS text message with a link directing them to a web app with the ability to confirm or disable an alarm in real-time.
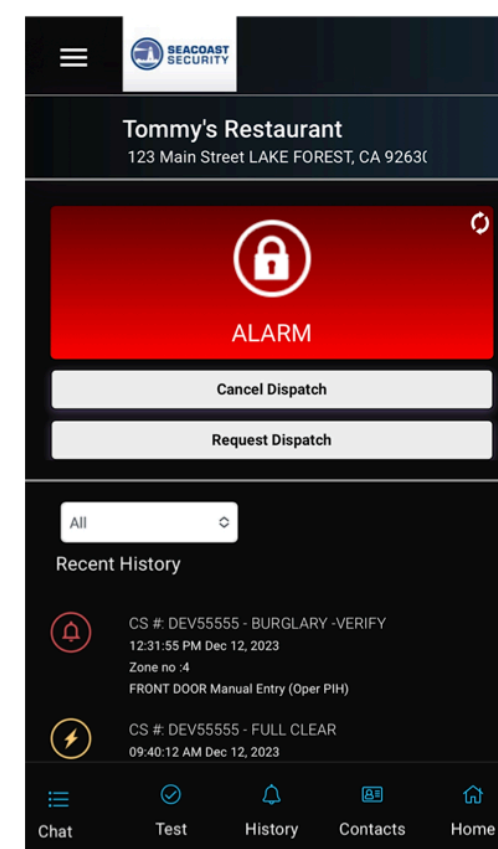

AlarmAccount SMS has additional easy-to-use features at the touch of your fingertips:

- View account information

- Place accounts on and off test for quick verification on alarms

- View alarm history

- Group chat with other emergency contacts to relay important information about the situation, or report that there is nothing to worry about
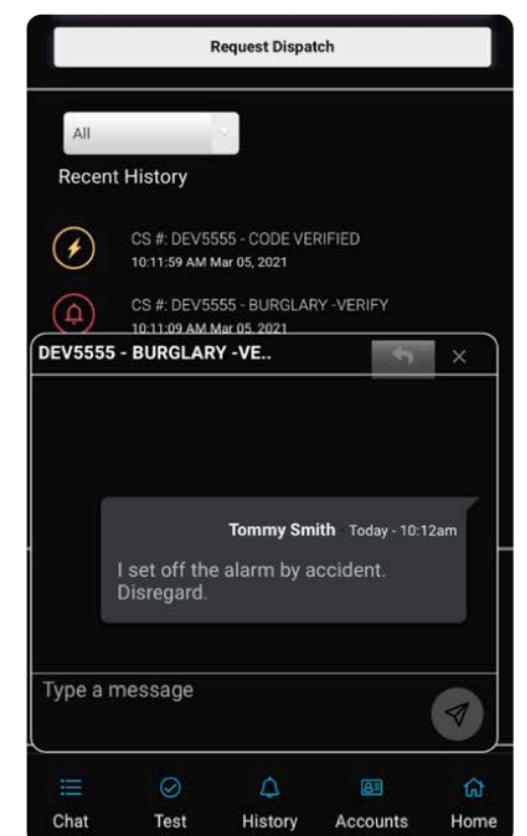

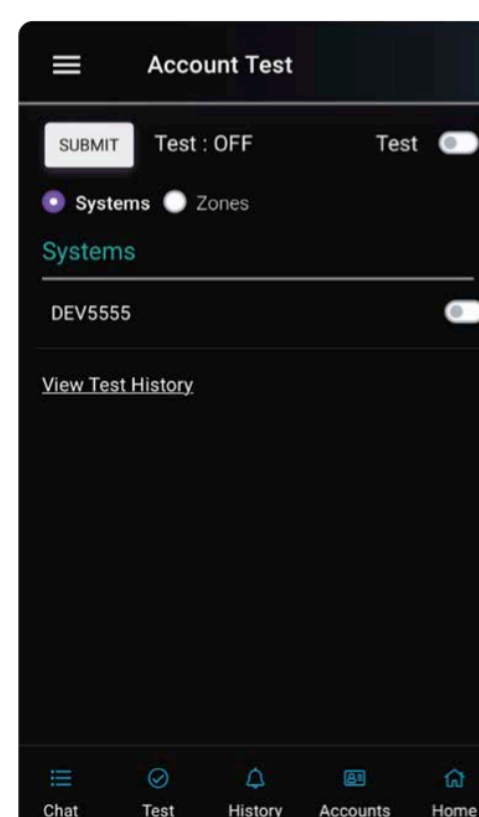

1 Text received

2 Alarm – Cancel Dispatch, or Request Dispatch

3 Group Chat with Other Contacts

4 Place Account On Test by Systems or Zones

5 Update Account Information
